

HR 7 - DIVERSITY &
INCLUSION
POLICY

Purpose

This policy acknowledges Freightways large and diverse workforce and seeks to ensure diversity and inclusiveness is championed through our work practice and through equal opportunity for all. We understand that a diverse and inclusive workplace that brings different ways of thinking will lead to better overall outcomes for all our stakeholders. Freightways is committed to diverse and inclusive teams through its recruitment, training and development, career progression and general workplace practice. Diversity and inclusion in our workforce is consistent with Freightways' Values of: Respect, Integrity, Leadership, Teamwork, Initiative and Service.

Background

Freightways recognises the importance of diversity and inclusion. We operate in increasingly diverse communities nationally and internationally. This diversity is evident in our workforce, customers, suppliers and other stakeholders.

In an increasingly competitive business environment, we understand that the engagement and performance of our employees and contractors is central to business success. Freightways is committed to creating an inclusive and collaborative working environment, in which each person is able to fulfil their potential and maximise their contribution, irrespective of gender, race, ethnicity, nationality, disability, religion or beliefs, marital status, sexual orientation, age, education or life experience. We recognise and value the different thinking and creative potential that individuals of different backgrounds and abilities bring to their work.

All Freightways employees are ultimately responsible for ensuring that the diversity principles embodied in this policy are imbedded in our work practice and in this regard should be aware of their personal responsibility to each other, customers, contractors, suppliers and visitors. The effectiveness of this policy will be monitored by management and evaluated at least annually by the Freightways Board of Directors.
